

## CONNECTION GUIDE FOR DC POWER SUPPLY

If connecting to 110V A/C power, please make sure this switch is in the 110V A/C Position

- 12VDC Output - Positive
- 12VDC Output - Negative
- 110V A/C Input - Ground
- 110V A/C Input - Neutral
- 110V A/C Input - Load

**\*ONLY INSTALL FACE UP OR IN A MANNER THAT THE COOLING GRATE FACES UPWARDS WITH SUFFICIENT BREATHING SPACE\***

DC Power Supplies are capable of accepting AC Power from an additional Wall Plug cord (sold separately) or hard-wired directly to a 100-240V AC Power line.
